EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Mason on 1/16/2006.

Insert the following at page 6, line 18 of the Specification:

"Brief Description of the Drawings"

FIG. 1 shows a block diagram of the process of the present invention.

FIG. 2 shows a block diagram of the preferred process according to the present invention.

FIG. 3 shows a simplified process flow diagram.

FIG. 4 shows a simplified process flow diagram."

The following is an examiner's statement of reasons for allowance:

The Zehner patent is the closest prior art to the instant claims. However, Applicant has perfected priority to DE 102 49 928.4. Therefore, Zehner is no longer prior art to the instant application under any sub paragraph of section 102. Accordingly, the rejection under section 103 is withdrawn.

The outstanding rejection under obviousness-type double patenting is withdrawn in view of the Terminal Disclaimer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
